Alternative Plan for sustainable Peace between Israel and Palestine,  
Participation, Women and UNSCR 1325

Dear Foreign Minister, Mr. Maas;

We, **Israeli and Palestinian women**, who are working in harmony for a sustainable and mutually negotiated peace agreement, call upon you to consider during your visit to Israel and Palestine when talking about an alternative to the “Trump Peace Plan” that **women will be involved in** all stages of the negotiations.

**We are urgently appealing to you to invite the representatives of the Parliaments of Israel and the PA, as well as respective delegations of women to Brussels or to any EU country in the year 2020, in order to facilitate a final peace treaty, negotiated exclusively by Palestinians and Israelis, under implementation of UNSCR 1325**

Irrespective of all substantive assessments of the Deal, the actions of the current US President in office are contrary to the principles of self-determination of peoples, democratic control by parliaments and Resolution 1325, which was unanimously adopted in the UN Security Council.

A sustainable peace can only be achieved if we the people can build mutual trust, internalise the narratives and suffering, reconcile and build a future for the next generations that is not marked by violence, division and deceit.

We, Palestinians and Israelis plus our international 1325-supporters call upon you **to proactively contribute to a peace agreement**.

18 European countries of the EU have adopted National Action Plans on UNSCR 1325. Let words be followed by deeds.

We look forward to positive feedback.

Dr. Warda Sada, Zeld Harris, Ina Darmstaedter  
delegates of the Canaan Project
