# There is a Solution !

INVITATION  
Canaan Conference  
Federal Foreign Office  
30. Oktober 2018, 17:00

Human nature is marked by compassion and a high sense of justice. We are united by a longing for knowledge, wisdom and love. We learn the skills of communication and accept rules as the basis of social relationships.

Paradoxically, however, our public space is increasingly dominated by personalities who are not aware of these essential qualities of humanity.

---

# Wisdom

---

In Israel and Palestine, women have chosen to counter the threatening escalation of the conflict with a thoughtful alternative. This courageous group of women started to develop a bi-lateral political agenda. Their methods include: listening, understanding, empathizing, using synergies, writing new narratives, granting equal rights to others, developing innovative solutions to supposedly unsolvable problems and creating win-win situations.

Their goal: a peace agreement based on transparency, participation and foresight.

Their instrument: International Law

In October 2000, the United Nations Security Council adopted a resolution calling on governments to include <women> in all phases of conflict resolution and consolidation. This UNSCR 1325 is a binding framework under international law that explicitly calls for cooperation between <women> and their governments. Israel and Palestine have recognised this resolution.

## UNSCR 1325

With over 50 % of the population and over 50 % of the votes cast, <women> can play a decisive role in shaping government decisions if they make use of this potential. The Cnaan Conference in Berlin invites <women> to bilateral talks on the implementation of the resolution 1325.

On October 30 th, 2018, Israelis and Palestinians will present their strategy for raising awareness, empowering and involving women in sustainable peace to an invited audience. We invite you to share the hope and to take action.
